Subject: Misleading inaccurate comparative coverage maps

Attachments: VZW_vs_ATT_Map FINAL.PDF

VZW_vs_ATT_Map
FINAL.PDF (889 ...)

The comparative coverage maps that are attached are using grossly outdated information to depict AT&T's 3G coverage and severely misrepresent the slight coverage advantage VZ currently has.

VZ cannot produce misleading comparative information and rely upon a small footnote informing the public that the competitor's information is out of date.

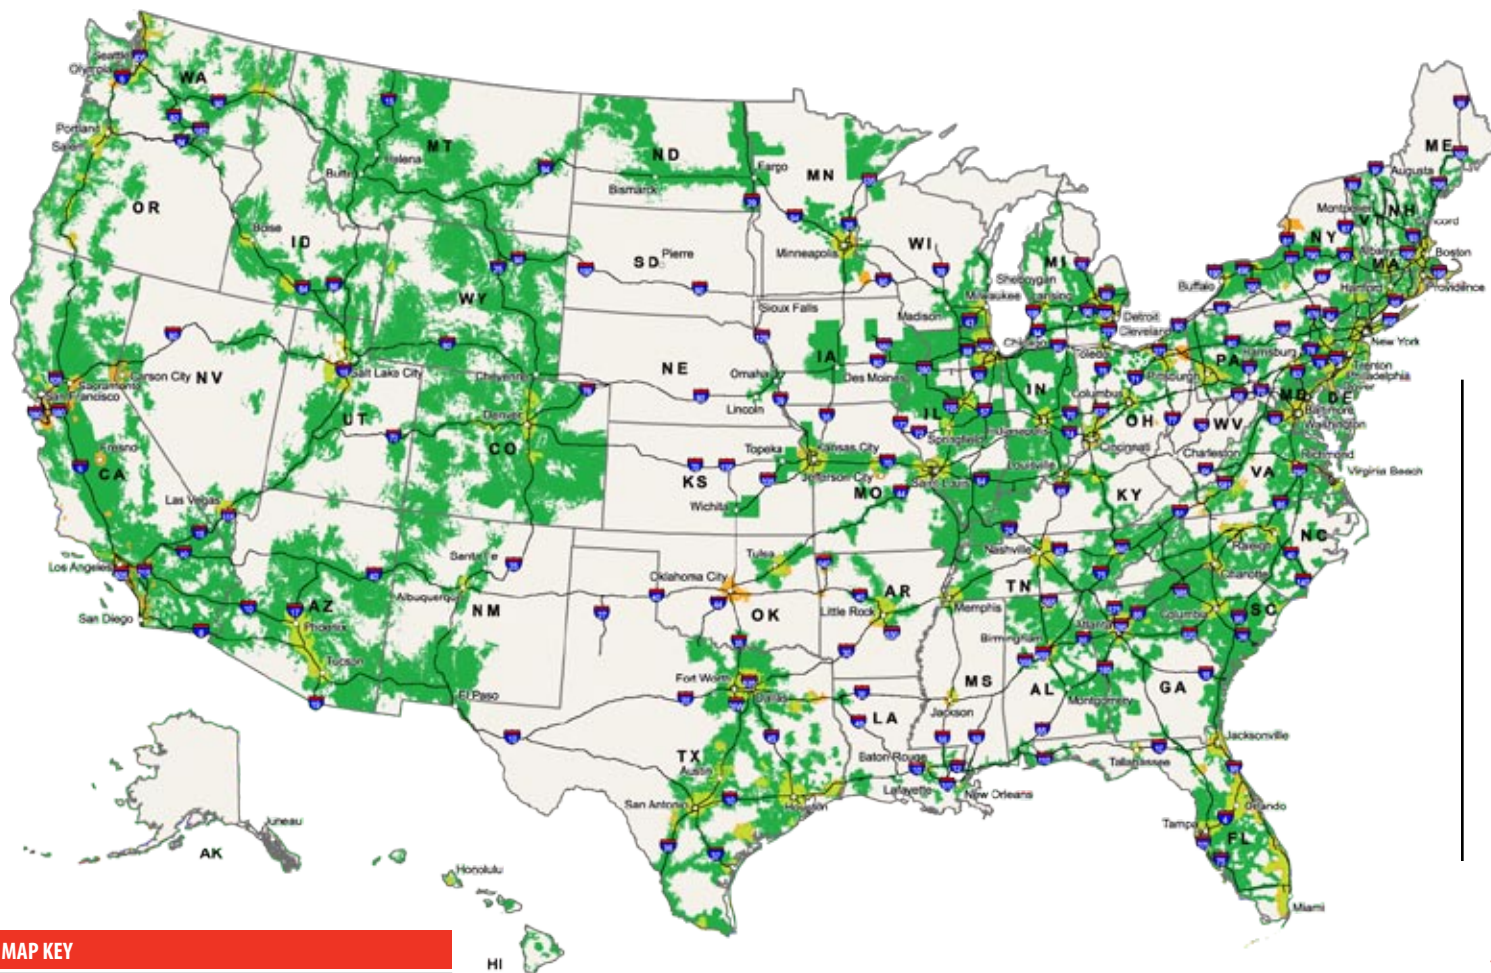

Current 3G coverage information for AT&T is available on our web site.

The 3G Network that Speaks to the Nation

Verizon Wireless vs. AT&T Broadband (3G) Network Comparison

MAP KEY

- AT&T – DataConnect (HSPA)
- Verizon Wireless and AT&T Network Overlap (EV-DO Rev. A and HSPA)
- Verizon Wireless – BroadbandAccess (EV-DO Rev. A)

Verizon Wireless Network Advantage

High-speed access in more places:

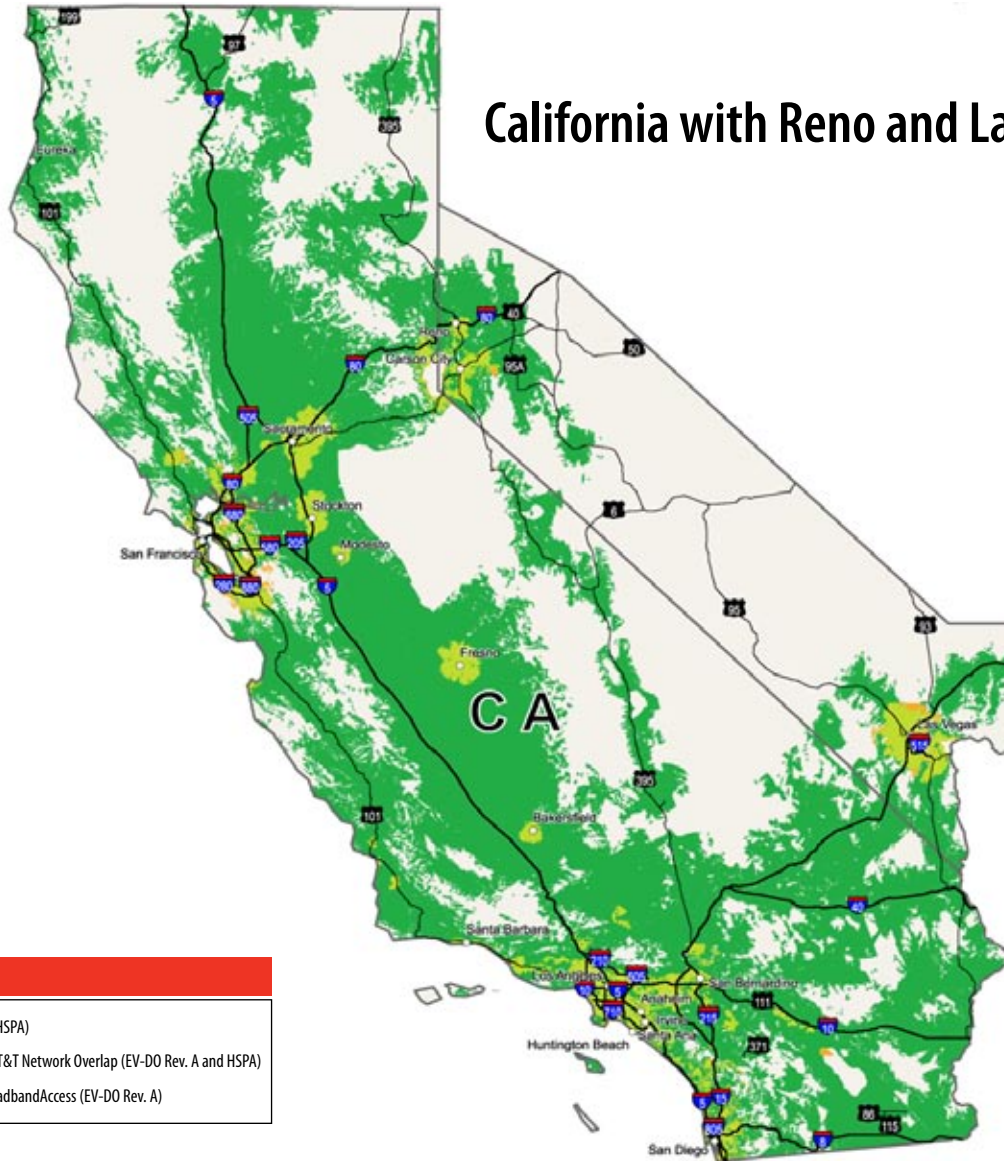

- We cover over 80% of the U.S. population with our high-speed broadband network (EV-DO Rev. A).
- Available to more than 245 million people. That's almost double the coverage of AT&T's broadband network (HSPA) which covers only 40-50% of the U.S. population.

The Verizon Wireless coverage depicted on this map shows approximately where its owned and operated network is available based on its internal data. The competitor coverage depicted on this map shows approximately where the competitor's owned and operated network is as of 03/31/2008 based on publicly available information, and we cannot vouch for its accuracy. The comparison of networks depicted here is for illustration purposes only, and is not to be relied upon to determine the exact availability of coverage. Wireless service is subject to network and transmission limitations, including cell site availability, particularly near boundaries and in remote areas. Customer equipment, weather, topography and other environmental considerations associated with radio technology also affect service, and service may vary significantly within buildings. More recent broadband coverage for VZW and/or AT&T may be available at www.verizonwireless.com/bbcoverage and at <http://www.wireless.att.com/coverageviewer>. ©2008 Verizon Wireless
